

**Independent Limited Assurance Report to Jiangxi Copper Company Limited**

we were engaged by Jiangxi Copper Company Limited ("Jiangxi Copper") to provide limited assurance to the Forced Labour compliance management stated in its Refiner's Compliance Report for the year ended 31 December 2024.

The assurance scope consists of the Forced Labour compliance management of facilities and gold and silver supply chain of Jiangxi Copper in its Refiner's Compliance Report.

**Responsibilities**

The directors of Jiangxi Copper are responsible for the preparation and representation of the Refiner's Compliance Report in accordance with the LBMA Forced Labour compliance requirements. This responsibility includes establishing appropriate risk management and internal controls from which the reported information is derived. The criteria identified by the directors as relevant for demonstrating compliance with the Forced Labour compliance requirements are the activities described within the Refiner's Compliance Report.

Our responsibility is to carry out a limited assurance engagement in order to express a conclusion based on the work performed. We conducted our assurance engagement in accordance with International Standard on Assurance Engagements (ISAE 3000 Assurance Engagements other than Audits or Reviews of Historical Financial Information) issued by the International Auditing and Assurance Standards Board and the Guidance set out in the LBMA Responsible Sourcing Programme – Third Party Audit Guidance (the Audit Guidance).

The extent of evidence-gathering procedures performed in a limited assurance engagement is less than that for a reasonable assurance engagement, and therefore a lower level of assurance is provided.

This report has been prepared for Jiangxi Copper for the purpose of assisting the directors in demonstrating compliance with the terms of our engagement. We do not accept or assume responsibility to anyone other than Jiangxi Copper for our work, or for the conclusion we have reached in the assurance report.

Limited assurance procedures performed  
We planned and performed our work to obtain limited assurance in relation to the above scope. These procedures

- Enquiries of management to gain an understanding of Jiangxi Copper's processes and risk management protocols in place
- Enquiries of relevant staff responsible for the preparation of the Refiner's Compliance Report
- Site visits to staff workplace and living space
- Assessment of the suitability of the policies, procedures and internal controls that Jiangxi Copper has in place to conform to the reported human compliance requirements

in all the evidence, information and explanations considered necessary in relation to the above scope. These procedures included:

- Review of a selection of the supporting documentation, including Jiangxi Copper's human resources related files and documentation, business recruitment management, workload management, leave management, compensation and benefits and etc;
- Review of the presentation of the Refiner's Compliance Report to ensure consistency with our findings

Non-financial information, such as that included in the Refiner's Compliance Report is subject to more inherent limitations than financial information, given the more qualitative characteristics of the subject matter and the methods used for determining such information. The methods used by Refiners to comply with Forced Labour compliance requirements may differ. It is important to read the Jiangxi Copper's Forced Labour compliance related policies which can be reached from the contact of Jiangxi Copper.

**Independence and competency statement**

requirements of the Code of Ethics for Professionals

We have complied with the independence and other ethical requirements set out in the International Ethics Standards Board for Accountants' (IESBA) Code of Ethics, including the principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

德勤

Deloitte

(ISQM) 1, "Quality Management for Firms that Perform  
or Related Services Engagements" and, accordingly,

Our firm applies International Standards on Quality Management  
Audits or Reviews of Financial Statements or Other Assurance

maintains a comprehensive system of quality control, including documented policies and procedures regarding  
compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

**Conclusion**

Based on the limited assurance procedures performed as described above, nothing has come to our attention that

Jiangxi Copper's Refiner's Compliance Report for the year ended 31<sup>st</sup> December 2024, did  
describe fairly the activities undertaken during the year to demonstrate compliance, and  
information contained therein, is not in accordance with the requirements of the LBMA Forced

would lead us to believe that  
not in all material respects;  
management's overall conduct  
Labour compliance.
